***Contact Disaster Doctors today, where we have an A+ BBB rating and accreditation, offer free estimates and 24/7 service.***

## Do I Really Need The Services Of A Water Damage Restoration Company?

---

If you do not have professional training and experience to locate the source of your water issues, assess damages and perform restoration services as a certified professional, leave the job to those with proper qualifications. ***Water cleanup and restoration requires the expertise of skilled professionals with training and experience.***

All of our professional technicians are ***certified*** by the Institute of Inspection Cleaning and Restoration Certification (IICRC) and understand the urgency of needing a water damage and restoration company in Salt Lake City Utah.

## I Removed The Standing Water – Is That Enough?

---

Did you know that mold colonies begin forming in as little as 24 to 48 hours after water exposure? Our professionals take specialized care to assess your home or commercial property, including areas already affected by mold growth and deliver [mold removal services](#).

Attempting to remove materials damaged by mold without proper expertise potentially increases the risk of experiencing health issues related to mold. Simply wiping down walls and floors do not take care of the problem, whether your water issues stem from a faulty appliance, water heater, pipe leak, flood damage or something else. Damage to walls, carpeting, floors, and structures is just some areas at risk for serious water damage that often needs emergency restoration services from our top-rated remediation company serving the Salt Lake City area. ***Failing to take quick action leads to more extensive damage and higher costs for you.***

The IICRC explains that all IICRC-certified restoration professionals have the expertise, training, and equipment to identify sources of excess moisture, evaluate for visible and invisible mold, contain the damage and remove contaminated materials.
